

CCHS Exam Results 2021

We congratulate our students on an outstanding set of results this year. In view of the continued disruption due to COVID 19 these results show the hard work and determination of our students to do their very best even when faced with both national and personal challenges. All students that attend our school face chronic or acute medical and /or mental health needs. Their schooling is often disrupted, even without the added challenge of a pandemic. We are delighted that their hard work has resulted in these great results. We wish them all the very best for the future.

Here are some highlights:

100% of all entries at GCSE were Grade 4 and above

Almost 20% of our results at GCSE were Grade 9

26% of our results at GCSE were grades 8 & 9

Individual Results

| GCSE Subjects | Number of candidates | Grades achieved |
